

Sample 4-Year Plan: Physics and Data Science

Below is a sample 4-year plan that shows how a student might navigate both the Physics major and Data Science major. This plan indicates both potential areas of overlap and non-overlap. Please note that it is not required that all double majors follow this plan nor is it required that students overlap the maximum number of courses between the two majors. This plan is provided as a tool for students to understand the potential course load between the two majors.

Students are strongly encouraged to review the full curriculum for both majors on the Guide and contact relevant advisors for information on course selection.

- *Physics Guide:* <https://guide.wisc.edu/undergraduate/letters-science/physics/#degreesmajorscertificatestext> (select either Physics BA or BS)
- *Data Science Guide:* <https://guide.wisc.edu/undergraduate/letters-science/statistics/#degreesmajorscertificatestext> (select either Data Science BA or BS)

Please note that the Physics major presumes students come in with credit for MATH 221 and 222, which are both required for the DS major and serve as prerequisites for PHYSICS courses.

	Fall		Spring	
	<i>Physics Major Courses</i>	<i>DS Major Courses</i>	<i>Physics Major Courses</i>	<i>DS Major Courses</i>
Year 1	PHYSICS 247 (5), MATH 234 (4)	COMP SCI 220 (4)	PHYSICS 248 (5), MATH 319 (3)
