**Importance:** High

---

Hi Data Science majors,

The Life Sciences Communications department has asked us to remind you that LSC 460 Social Media Analytics **will open to non-LSC majors on November 14<sup>th</sup>**, similar to how we give priority enrollment access to our declared Data Science students to certain courses.

**They have asked us to request you do NOT email them** asking to bypass the priority enrollment access requisite. If there are open seats on November 14<sup>th</sup>, you can enroll then.

As you can imagine, this is an extremely busy time of year for advising staff. Responding to numerous email requests about information that is clearly displayed in the enrollment tool is not a good use of time. Please make sure to read all enrollment verification error messages, subject notes, section-level course requisites, and instructor provided content. **We are confident that by reviewing the provided information, you will find the answer to your questions.**

Please review the class subject notes that displays this information (screenshot below):

**Subject notes**

Hiram Smith Hall - 1545 Observatory Drive

Some LSC courses give priority access to LSC majors or LSC majors and Science Communication certificate students until November 14, you must be declared in these programs to receive priority enrollment. If you see a class that says it is only open to LSC majors or Sci Comm certificate students, please check back later to enroll in any open seats or add yourself to the course waitlist.

Most of our courses provide additional information under "Instructor Provided Content" at the bottom of this tab. Check out that information to learn more about the course.

Registration questions can be directed to [lifescicomm@cals.wisc.edu](mailto:lifescicomm@cals.wisc.edu).
