Working at Capgemini:

Are you interested in working in a high-tech global consulting firm focused on digital transformations and tech solution implementations? We are looking for a goal oriented compassionate person who can work in a fast-paced environment. Due to our rapid growth we are looking to hire a motivated person who is excited to take the next steps with Capgemini.

About Capgemini

Capgemini is a global leader in consulting, digital transformation, technology and engineering services. The Group is at the forefront of innovation to address the entire breadth of clients' opportunities in the evolving world of cloud, digital and platforms. Building on its strong 50-year+ heritage and deep industry-specific expertise, Capgemini enables organizations to realize their business ambitions through an array of services from strategy to operations. Capgemini is driven by the conviction that the business value of technology comes from and through people. Today, it is a multicultural company of 270,000 team members in almost 50 countries. With Altran, the Group reported 2019 combined revenues of €17billion. Visit us at www.capgemini.com. People matter, results count.

Job Description:

You will be working with Capgemini's Banking and Insurance clients for developing, testing and maintaining business applications after initial 10- week training program. During the training program, you will be trained to enhance your relevant programming, delivery and consultative skills to be successful in your role. During your tenure, you'll be working on our client projects in financial services industry on challenging projects that have the potential to change the way we trade. You'll work closely with a mentor who will provide guidance, growth opportunities, and genuine feedback. We provide an ideal opportunity for bright engineering-savvy minds to put their talents to the test in real-world applications.

Responsibilities:

- Programming using object-oriented programming languages
- Documenting high level technical designs
- Using Basic DB skills
- Working with customers and on teams

Requirements:

- Good customer facing and business communication skills
- Coursework in Object Oriented Programming and Programming Languages (such as Java, JavaScript), Database Management and Data Manipulation
- Strong team player with organizational and interpersonal skills
- Aptitude for analytical concepts and great attitude & work ethic
- Ability to work with leadership and clients
- US Citizen or Permanent Resident

What we offer:

Your career matters to you and is important to us too. Because your goals and needs are constantly evolving, we offer visibility, leeway and support to help you grow and progress in your career. This approach builds notably on our comprehensive competency framework, our personal development, training and career management programs, and our University innovative and business-focused learning curriculums.

We promote a culture of diversity. We believe working with talented individuals from different backgrounds and points of view is a strategic advantage and an ongoing opportunity. Diversity enriches our creative solutions and adds value for our clients.

Our Shared values have been at the heart of the group since our formation. They are honesty, boldness, trust, freedom, team spirit, modesty and fun. These values influence the way we meet client needs while respecting the regulatory requirements of each country in which we operate, and the way we promote ethically sound practices within Capgemini and in our partnerships.

Capgemini is committed to building a workforce of employees with diverse backgrounds and work experiences. We strongly encourage women, veterans and active military service personnel to apply.

Disclaimer
